

# Grading

## Grade construction

- 55% written examination (individual).
- 45% project work (15% per sprint).

## Project work grading

- 5% in each sprint for implementing it using an automation framework such as Terraform or Ansible. It must have the ability to install the exercise in an empty Exoscale account without human interaction.
- 10% in each sprint for demonstrating a working functionality.

## Marks

Positive grade: Minimum 60% score in written exam plus 60% of overall score required.

| 1          | 2         | 3         | 4         | 5    |
|------------|-----------|-----------|-----------|------|
| 90% — 100% | 80% — 89% | 70% — 79% | 60% — 69% | <60% |
